## Software Developer

Philippines ▪ [johngalang.dev@gmail.com](mailto:johngalang.dev@gmail.com) ▪ [LinkedIn](#) ▪ [GitHub](#) ▪ [Portfolio](#)

Results-driven Full-stack Software Developer with **5 years of experience** specializing in **TypeScript** and modern web technologies.

---

### Highlights of Expertise

- React, Angular
- Tailwind, Material UI, SCSS
- Unit, E2E, and Automation Testing
- Node, Express
- MongoDB, PostgreSQL, MySQL
- Git, GitHub, Jira, Confluence, Figma

### Career Experience

---

#### Senior Software Engineer – January 2024 – Present

*Glitchy (TypeScript, Next JS, MySQL, AWS)*

- Engineered a sophisticated bucketing system for affiliate marketing pay-outs, driving substantial revenue growth.
- Elevated code quality through rigorous code reviews, ensuring adherence to best practices and enhancing software reliability and maintainability.

#### Software Developer – December 2021 – December 2023

*SuiteSpot Inc. (TypeScript, Angular, Express, Ionic, MongoDB)*

- Consistently achieved sprint goals by delivering new features, extending functionalities, and resolving software defects with precision
- Mastered efficient debugging techniques, significantly improving software stability and reliability.
- Contributed to code reviews and collaborated with senior developers, honing skills in writing scalable, high-quality code.

#### Node JS Developer – October 2020 - November 2021

*2Dam Creative (TypeScript, Node, Express, MongoDB)*

- Pioneered the adoption of linters and formatters within the development team, enhancing code clarity and consistency.
- Enforced strict TypeScript usage, reducing reliance on 'any' types, and boosting overall code quality.
- Led the development of comprehensive documentation on Confluence, facilitating smoother onboarding and efficient internal processes.

#### React Developer – January 2020 - September 2020

*10x Ventures (TypeScript, Next JS, Node, Prisma, PostgreSQL)*

- Developed an innovative web application leveraging the Twitter API to assist SaaS start-ups, ecommerce businesses, coaches, and marketers in acquiring leads and initial customers.
- Collaborated within an agile scrum team, prioritizing feature requests to maximize impact and deliver high-value functionalities.
- Implemented high-demand features such as bulk messaging and lead management based on user feedback, enhancing application usability and user satisfaction.

### Education

---

#### University of the Philippines Los Baños –2015 – 2019

*Bachelor of Science degree*
